Fullstack software engineer with a strong academic foundation and collaborative spirit. Technical proficiency in Javascript, Node, React, HTML and CSS, as well as Python, Postgres and SQL. Seeking a software engineering position to apply technical skillset and continue to develop skills in solving real-world problems with a growth-mindset team that values innovation and collaboration.

Skills

JavaScript | React | Node.js | Express | Python | Git | SQL | Postgres | HTML | CSS | RESTful APIs

Experience

Software Engineer Trainee | Springboard | Remote February 2023 - present

- ❖ Worked with an industry mentor to develop and deploy full-stack web applications with an emphasis on usability and performance optimization.
 - [Warbler](#): Application that mimics twitter's features. Tasked with understanding, debugging and implementing user-interaction features of messaging, engaging with posts, and uploading images. This web application was built using Python, Flask, SQL, HTML and CSS.
 - [Jobly](#): This project was designed with Javascript, React, Express and Node. Jobly is a mock job application site, where users register, view companies, job postings and keep track of jobs they have applied to.

Freelance Web Developer | West Hartford, CT January 2024 - present

- Collaborate directly with clients to design, develop, and deploy dynamic, responsive websites using React, Next.js, HTML, and CSS, ensuring high-quality user experiences and meeting all project requirements and deadlines.

Dental Assistant | Center for Dental Excellence | West Hartford, CT Jan 2022 - Dec 2023

- Implemented 3D Oral Scanning software systems
- Trained 3 staff members on new software
- Troubleshooting Eaglesoft software malfunctions
- Communicated and explained treatment to 8 patients per day

Dental Assistant | Bullock Family Dental | Wilsonville, OR Jan 2021 - Jan 2022

- Troubleshooting Dentrrix software malfunctions
- Communicated and explained treatment to patients daily
